

Due to continued expansion VWS Ltd are seeking to add an Estimator to assist our ever-growing team. You will be expected to have a proven track record in Estimating systems comprising of (but not limited) to CCTV, Access Control, Door Entry Systems, Intruder Alarms, Fire, Networking and Automatic Doors. You must have an excellent attention to detail and will be familiar with the NCP 104, NCP 109, BS4737/PD662, BS 5839, BS 7036 and BS 7671 Standards. You will have as a minimum FIA Unit 1 Fire Detection Design accreditation and preferably units 2&3: advanced detection design and advanced alarm design.

Only CV's from engineers with previous experience on the disciplines above will be accepted. All Applicants must have a full driving license.

All Applicants will be expected to:

- Create Drawings to NSI Gold Standards and FIA Standards
- Understand the company call management system.
- Communicate with VWS staff, customers and public via email and telephone
- Follow and Understand all processes flowcharts laid out in the [QMS](#)
- Understand all Disciplines carried out by the company
- Be competent at estimating all types of systems and compiling information to admin and managerial staff
- Estimate different systems from a supplied CAD Drawing, Specification or equivalent
- Create specifications and estimates from supplied build up sheets or equivalent
- Understand regulations pertaining to all disciplines undertaken by the company
- Attend Management meetings when required
- Create program of works from estimate or specification
- Assist in compiling tender submissions
- Understand the Disability Discrimination Act (DDA) 2005
- Understand Construction (Design and Management) Regulations 2015
- Negotiate with suppliers and subcontractors gaining competitive pricing
- Negotiate with Mechanical and Electrical contractors to establish satisfactory pricing for both VWS and M&E contractor
- Establishing and maintaining effective relationships with new and existing customers
- Identifying extra work opportunities and sales lead generation of work (upselling)
- Following up sales quotes and leads accordingly and effectively managing any queries
