

Due to successfully winning a contract with Hillcrest Housing Association VWS Ltd are seeking to add a qualified Fire engineer based in Edinburgh (or surrounding areas) to our service team. You will be expected to have a proven track record and be fully certified (FIA or equivalent) in servicing and maintaining Fire Detection Systems and Fire Fighting Equipment. It would also be beneficial if the applicant had experience in servicing and maintaining Door Entry Systems, Intruder Systems, Fire, CCTV, Networking and Automatic Doors. You must have an excellent attention to detail and will be familiar with the NCP 104, NCP 109, BS4737/PD662, BS 5839, BS 7036 and BS 7671 Standards.

Only CV's from engineers with previous Fire experience on will be accepted. All Applicants must have a full driving license, should be willing to travel and work overtime/nightshift when required.

It is essential that the chosen candidate holds a valid CSCS/ECS card. It would also be desirable if the candidate held a PASMA and IPAF card although this is not critical.

All Applicants Must Be

- Capable of working to a high standard and to agreed time frames.
- Competent with electrical wiring and should understand electronic circuits.
- Willing to work at heights.
- Good with working with their hands, tools and power tools.
- Able to compile Risk assessments and method statements for smaller scale jobs.
- A good communicator to both customers, other members of staff and VWS management.
- Computer Literate and have a good grasp of PC components.
- Familiar with computer networks and preferably wireless networks.
- Capable of accurately documenting job progress via a Personal Data Assistant (PDA) provided by VWS.
- A good organiser, planner and can work on their own or as part of a team.
- Presentable, fit and tidy.

It is essential that the applicant is proficient with both addressable and conventional Fire systems ranging from small to large scale.

It would be preferable if the applicant had experience in servicing Gent, Apollo, Hochiki and Kentec Fire systems. We are currently servicing and maintaining approximately 400 sites

for Hillcrest Housing association and the applicant will be expected to commute, maintain and service the Fire detection equipment on these sites.

Basic working hours are from 8am to 4:30 pm Monday to Friday.

Package includes: Company vehicle, laptop, mobile phone/PDA, uniform/PPE, specialist tools, private pension scheme.

30 Days holiday per year. Salary will be subject to experience.
